

L. William Varner

Mr. Varner was named President of the ManTech Mission, Cyber & Technology Solutions (MCTS) Group in September 2009. MCTS is a 2,500 person, \$600M Group responsible for ManTech's business in the Intelligence, Defense, and Civil Communities, providing technical support, systems engineering, information technology, and operations and cyber security support. Before joining ManTech International Corporation, Mr. Varner was a core member of the senior executive team that grew Northrop Grumman TASC to approximately \$2 billion in annual revenues. In his role as Vice President, he led over 1,000 employees in the Intelligence Operating Unit in delivering leading-edge and innovative technical solutions and operations support to the Defense and Intelligence Communities. While at TASC, Mr. Varner led his team to achieve their first corporate Capability Maturity Model Integration (CMMI) Level 5 Certification in software development, as well as leading several multi \$100 million strategic proposal wins. Before joining TASC, Mr. Varner was with ESL, Inc., where he developed adaptive speech and signal processing systems. Mr. Varner is a graduate of George Washington University (BSEE with Special Honors), Purdue University (MSEE), and Virginia Polytechnic Institute and State University (MBA). Mr. Varner also has advanced studies certificates from the University of Pennsylvania Wharton School (Financial Management), Harvard University (Management), the University of Virginia Darden School (Leadership), and the California Institute of Technology (Technology Management). Mr. Varner is a member of the INSA Board of Directors.
